# Don't be late

The client is keen to meet you so ensure you turn up 5-10 minutes before the interview and are composed and ready to impress!

The client will want honesty but too many negative comments about your previous employers can reflect badly on you.

# Be presentable

Whether face to face or virtual, look well presented... remember first impressions count!

# Always have a plan

Read your CV and the job details. It will help you be concise with your answers.
